

Super Skin Hydrator Crème

Super Skin Hydrator Crème - how does it work?

Environmental factors, diet and lifestyle can diminish the skin's ability to maintain optimum moisture levels. Super Skin crème containing Hyaluronic acid combined with matrixyl, boosts the skin's ability to retain moisture thereby creating a healthier skin.

Why use Arbré Super Skin Hydrator Crème?

This super skin hydrating formula promotes skin hydration, skin smoothness and anti ageing.

Arbré Super Skin Hydrator Crème contains:

- Super skin hydrator
- Matrixyl
- Hyaluronic acid.

What does Super Skin Hydrator Crème do?

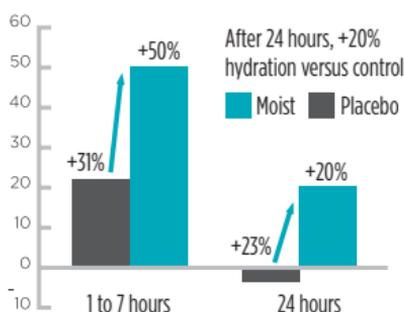

- ▶ increases moisture retention in the skin
- ▶ absorbs easily into the skin
- ▶ minimises the appearance of fine lines
- ▶ smooths the skins appearance

The Arbré professional super skin hydrator treatment delivers instant results.

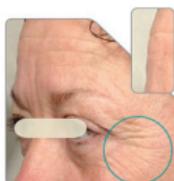

Professional Arbré super skin hydrator treatments and procedures are available for beauty therapists only.
